<i>HUMAN SOURCE PLASMA</i>	HBs Ag, Anti-HIV 1/2 and Anti HCV Nonreactive when units tested individually.
<i>STORAGE TEMPERATURE</i>	Refrigerate 2-8°C.
<i>STABILITY</i>	The expiry date is illustrated on the side of each pack.
<i>SAFETY</i>	Because no test method can offer complete assurance that products derived from human source will not transmit infectious agents, it is recommended that this product be handled with the same precautions used for patient's specimens.
<i>USE</i>	Use of this product is only recommended together with the enclosed batch specific document which contains analytical data and stability information.

This is to certify that the following reagents were tested and approved by Linear Chemicals Quality Control Department.

This lot was assayed by the test method described in the manufacturer's package insert. These results are applicable to this lot and subsequent sublots, for which a capital letter has been assigned after the lot number.

This Certificate of Analysis is a computer printout and has therefore not been signed by hand.

<b>This lot meets our specifications and is released for sale</b>	<b>APPROVED</b>	<b>Signed</b> <b>Date of Manufacture:</b> Marta Vilaró 2018-05-22 Quality Control Dept.
	(APPROVED / NOT APPROVED)
